Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Ali initiated this phone interview to discuss §112, first paragraph rejection for claims 8 and 21 and §103 rejections of all independent claims. Mr. Ali clarified how paragraph 59 of the originally filed specification provides written description support for the limitations in claims 8 and 21. However, no agreement was reached and examiner suggested applicant to clarify it on the record. Regarding §103 rejections for all independent claims, applicant argued that his system has client specific signatures to detect attacks. Examiner in response pointed out that current set of claim language does not require signature to be client specific. However, agreement was reached that Shetty does not explicitly teaches client specific signatures.
